Simple, powerful communications for small and medium size businesses

How do you keep your business flexible, innovative and competitive without driving up operating costs and capital expenses? Broadland Solutions puts the answer at your fingertips: the Avaya IP Office communications system.

Equipped to succeed anywhere

Today's office can be a kitchen bench or an airline seat. With Avaya IP Office you are able to keep up with the speed of business and enable a more flexible workforce. It's a system that's incredibly sophisticated, yet remarkably simple to use:

- Share information, anytime, anywhere, via any device
- Have the power of a unified communications system that connects everyone— your people, your customers, your partners
- Go ahead and grow—IP Office is fully capable of handling up to 1,000 users in a single site or across multiple sites.

A SIMPLE, SCALABLE SOLUTION THAT'S FUTURE-READY

Small Businesses

Whether for five or 250 employees, IP Office delivers sophisticated communications, simplified. Small businesses that value communications appreciate how IP Office helps enhance productivity in a solution that's right for your budget and resources.

Midsize Enterprises

With its ability to scale to 1,000 users at a single site (or across as many as 32 locations), IP Office is ideally suited to the midsize enterprise that wants powerful, business-impacting communications. IP Office is an industry leader in low total cost of ownership and unique in its ability to grow in both scale and sophistication.

Branch Offices

Large enterprises with branch offices confront the cost and complexity of keeping everyone communicating. Avaya makes it easy to connect to headquarters locations, including those with Avaya Aura®, the award-winning enterprise communications system that powers over 85 percent of the Fortune 500.

Seamless Integration:

IP Office Seamlessly integrates with your existing applications such as Microsoft Outlook, Microsoft Lync, and Salesforce.com to make desktop communications more efficient. And there are hundreds of third-party Avaya certified applications, too. Click to dial, check colleagues' presence, sync with contacts and calendars within your favourite desktop app.

BROADLAND SOLUTIONS OFFERS THE FOLLOWING AVAYA PHONE SYSTEMS:

IP Phones:

IP phones have a sleek design and rugged construction. They boast low power consumption and maintain enhanced audio quality. The 9641G model has a high-resolution (480 x 272 pixels) colour touch screen with 24 programmable buttons.

Digital Phones:

Avaya's easy to use digital phones include features such as large, readable displays, interactive soft key buttons and paperless labels.

CONFERENCE PHONES

Avaya B149, B159 and B179 conference phones are the ideal way to leverage the built-in Avaya IP Office conference bridge. They're equipped with exclusive Avaya OmniSound® technology for crystal-clear voice transmission, plus features that make setting up, managing and participating in conference calls a breeze.

WIRELESS PHONES

Work anywhere in your office environment - our IP, digital and SIP wireless phones are sleek and durable and let you take all the capabilities of IP Office with you.
